Notes to the Condensed Interim Financial Statements

(Unaudited, expressed in Canadian dollars, unless otherwise stated)

5. Investments at fair value (continued)

(ii) On December 22, 2016, the Company acquired 5.9% or 400,000 units ("Unit") of El Olivar Imperial SAC ("El Olivar"), a privately held Peruvian corporation, at US\$1.00 per Unit through a private placement. Each Unit consists of one Class A voting preferred share and 1.5 Class A share purchase warrant (the "EI Warrant"), with each full warrant entitling the holder to purchase one additional Class A voting share at a price of US\$1.00. Such warrants expired in 2019.

One director of the Company is also a director, an officer, and a significant shareholder of El Olivar.

As part of the consideration for the investment in El Olivar, the Company was entitled to receive an annual cash dividend in U.S. dollars equal to 6% of the total invested amount, calculated from the closing date of investment and payable starting on June 22, 2018. However, due to delays in project construction, no dividends have been paid. The Company has not accrued the dividend receivable given that El Olivar has not started its operations and the timing and structure of the initial dividend payment is uncertain.

In accordance with Level 3 of the fair value hierarchy, the Company impaired its investment of \$545,293 (US\$400,000) in El Olivar as at December 31, 2019, due to the fact that El Olivar needed to raise significant money to complete the development of its project with uncertainty of its ability to raise these funds in a timely manner. During the six months ended June 30, 2021, there was no change in management's assessment and this investment remains impaired.

During the six months ended June 30, 2021, the Company acquired common shares of public companies for a total cost of \$1,083,152 (2020 - \$134,972) and disposed common shares of public companies for proceeds of \$257,853 (2020 - \$667,051) resulting in realized gains of \$117,057 (2020 - \$189,368).

Fair value measurement

As at June 30, 2021 and December 31, 2020, financial instruments that are not measured at fair value on the balance sheet are represented by cash and cash equivalents, short-term investment, receivables, due from related parties, account payable and accrued liabilities. Financial assets and liabilities that are recognized on the balance sheet at fair value can be classified in a hierarchy that is based on the significance of the inputs used in making the measurements. The levels in the hierarchy are:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and
