As at March 31, 2013, the Company has \$5.8 million cash and short-term investments which include \$4.7 million in Guangzhou Mingzhong Mining Co., Ltd ("Mingzhong") to be used for the final payment for the acquisition of the Changkeng exploration permit. The remaining cash balance and short-term investments available to fund exploration and general corporate requirements was \$1.1 million held primarily in the Company's Chinese subsidiaries. The Company may face delays repatriating funds held in China if at any time the Company needs additional resources to enable it to undertake projects elsewhere in the world. The Company plans on meeting any additional short-term cash requirements through funds advanced from Minco Silver. In addition, the Company could raise funds through the sale of its equity investment in Minco Silver when necessary.

3. Adoption of new accounting standards and amendment

Effective January 1, 2013, the Company adopted four new accounting standards and amendment to IAS 1, *Presentation of Financial Statements*.

(i) IFRS 10 - Consolidated Financial Statement

This standard establishes principles for the presentation and preparation of consolidated financial statements when an entity controls one or more other entities. This standard: (i) requires a parent entity (an entity that controls one or more other entities) to present consolidated financial statements; (ii) defines the principle of control, and establishes control as the basis for consolidation; (iii) sets out how to apply the principle of control to identify whether an investor controls an investee and therefore must consolidate the investee; and (iv) sets out the accounting requirements for the preparation of consolidated financial statements. IFRS 10 supersedes IAS 27 *Consolidated and Separate Financial Statements* and SIC-12. *Consolidation - Special Purpose Entities.* The adoption of this standard did not have an impact on our condensed consolidated interim financial statements.

(ii) IFRS 11 – Joint Arrangements

This standard requires a venturer to classify its interest in a joint arrangement as a joint venture or joint operation. Joint ventures will be accounted for using the equity method of accounting whereas for a joint operation the venturer will recognize its share of the assets, liabilities, revenue and expenses of the joint operation. Under previous IFRS, entities have the choice to proportionately consolidate or equity account for interests in joint ventures. IFRS 11 supersedes IAS 31, *Interests in Joint Ventures*, and SIC-13, *Jointly Controlled Entities—Non-monetary Contributions by Venturers*. The adoption of this standard did not have an impact on our condensed consolidated interim financial statements.

(iii) IFRS 12 - Disclosure of Interests in Other Entities

This standard establishes disclosure requirements for interests in other entities, such as subsidiaries, joint arrangements, associates, and unconsolidated structured entities. The standard carries forward existing disclosures and also introduces significant additional disclosure that address the nature of, and risks associated with, an entity's interests in other entities. IFRS 12 supersedes IAS 27, IAS 28 *Investments in Associates* and IAS 31 *Interests in Joint Ventures*. The adoption of this standard did not have an impact on our condensed consolidated interim financial statements, but will require additional disclosures to be included in the Company's 2013 annual financial statements.

(iv) IFRS 13 - Fair Value Measurement

This is a comprehensive standard for fair value measurement and disclosure for use across all IFRS standards. The new standard clarifies that fair value is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. Under existing IFRS, guidance on measuring and disclosing fair value is dispersed among the specific standards requiring fair value measurements and does not always reflect a clear measurement basis or consistent disclosures. The adoption of this standard did not have an impact on the measurement of any balances on our condensed consolidated interim financial statements. In conjunction with the implementation of IFRS 13, IAS 34, interim financial statements were amended to include certain IFRS 13 disclosures. The disclosures required in the interim financial statements are included in note 10.

(v) IAS 1 – Presentation of Financial Statements

4. Cash and short-term investments

a) Guangdong - Changkeng

Minco China is the controlling shareholder in Mingzhong with a 51% interest.

Mingzhong signed an exploration permit transfer agreement with No. 757 Exploration Team of Guangdong Geological Bureau ("757 Exploration Team") and on January 5, 2008 Mingzhong received the Changkeng exploration permit (the "Changkeng Exploration Permit"). This exploration permit was renewed for a two-year period ending on September 10, 2013. To acquire the Changkeng Exploration Permit, Mingzhong is required to pay RMB 48 million (approximately \$7.7 million). As at December 31, 2008, the first payment for the Changkeng Exploration Permit to 757 Exploration Team was made in an amount of RMB 19 million (approximately \$3.0 million).

In order to pay the remaining RMB 29 million (\$4.7 million), shareholders of Mingzhong agreed to inject capital of RMB 32 million (\$5.1 million). As of March 31, 2013, Minco China paid RMB 16.3 million (\$2.6 million) and the five minority shareholders paid RMB 15.7 million (\$2.5 million). 5. Mineral interests (continued)

As two of the shareholders, Guangdong Gold Corporation ("GGC") and Guangdong Geological Exploration and Development Corporation ("GGEDC"), are state-owned companies they need to receive the requisite approval from the Guangdong provincial government's Minister of Finance to increase their share of registered capital in Mingzhong. The funds received from the five minority shareholders are classified as a current liability as at March 31, 2013, pending approval of the capital injection.

The remaining amount payable for the Changkeng Exploration Permit of RMB 29 million (\$4,731,028) was classified as a current liability as at March 31, 2013.

Pursuant to the terms of an agreement with Minco Silver, the Company has assigned its right to earn a 51% interest in the Changkeng Silver Mineralization to Minco Silver. As a result, Minco Silver is responsible for 51% of the total costs in relation to the Changkeng Silver Mineralization.

b) Gansu - Longnan

Minco China holds ten exploration permits in the Longnan region of south Gansu province in China. The Longnan region is within the southwest Qinling gold field.

The Longnan project has been divided into three sub-projects according to their geographic distribution, type and potential of mineralization:

i) Yangshan: including five exploration permits located in the northeast extension of the Yangshan gold belt and its adjacent area;

- ii) Yejiaba: including four exploration permits adjacent to the Guojiagou exploration permit; and
- iii) Xicheng East: including one exploration permit to the east extension of the Xicheng Pb-Zn mineralization belt.

The Company has spent a cumulative total of \$9.8 million of exploration costs on the Longnan project as at March 31, 2013 (December 31, 2012 - \$9.6 million) on exploration costs.

On December 16, 2010, Minco China entered into an agreement with the 208 Team, a subsidiary of China National Nuclear Corporation, to acquire a 51% equity interest in the Tugurige Gold Project located in Inner Mongolia, China (the "Agreement"). The 208 Team did not comply with certain of its obligations under the Agreement, including its obligation to set up a new entity (the "JV Co") and the transfer of its 100% interest in the Tugurige Gold Project to the JV Co. As a result, Minco China commenced legal action in China seeking compensation.

On March 25, 2013, Minco China settled its claim against the 208 Exploration Team relating to the Agreement for a settlement amount of RMB 14 million (\$2.4 million).

		Options outstanding		Options	exercisable

	7,295,667	3.66	0.89	3,617,340	1.31

The Company used the Black-Scholes option pricing model to determine the fair value of the options with the following assumptions:

	2013	2012
Risk-free interest rate	1.26% - 1.46%	1.12% - 1.56%
Dividend yield	0%	0%
Volatility	91% - 92%	89% - 95%
Forfeiture rate	26%	28%
Estimated expected lives	5 years	5 years

Option pricing models require the use of subjective estimates and assumptions including the expected stock price volatility. The stock price volatility is calculated based on the Company's historical volatility. Changes in the underlying assumptions can materially affect the fair value estimates and therefore, in management's opinion, existing models do not necessarily provide a reliable measure of the fair value of the Company's stock options.

It is required that the classification of fair value measurements uses a fair value hierarchy that reflects the significance of the inputs used in making the measurements, including the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The marketable securities are measured at fair value based on quoted market price (level 1). Other financial instruments on the balance sheet are not measured at fair value.

Financial instruments that are not measured at fair value on the balance sheet are represented by cash and cash equivalents, short-term investments, receivables, due from related parties, accounts payable and accrued liabilities, accounts payable for Changkeng permit, advance from non-controlling interest and due to related party. The fair values of these financial instruments approximate their carrying values due to their short term nature.
